Scott,

This is the first of the SLAB 2013 ARs for you to start keeping both electronic and a hard copy files. We received this report from the receiving facility in Canada because the US exporter has gone out of business and we will be unable to obtain a signed AR.

FYI, Tonolli has worked with all of its US exporters on getting their 2012 SLAB export ARs done and we should be receiving them soon. Unfortunately they got this done before Laura could create an excel optional form for them to use. So....you will have to create electronic files for all these reports in addition to filing the paper copies. We will need to discuss with Laura and Bob how we are going to handle inputting the data into an excel spreadsheet in order to upload it to Laura's database so any FOIAs are easier to respond to....we will discuss with Bob when he returns. Of course, you will not have to send a reminder letter to file 2012 ARs to any company for which we receive the AR via Tonolli, much less work for you on that end....
